## FOR YOUR CHILD AND THEIR FRIENDS TO ENJOY!

Required Hardware: a tablet, phone, or computer with video conferencing software, and the Dobble game of your choice (all players must use the same edition)

### GAME 1: THE DOBBLE E-TOWER

- Each player places a stack of 20 cards faceup in front of them.
- Each player draws a card and reveals it to the camera simultaneously. The first player to get rid of all their cards is the winner.
- To get rid of a card, a player must shout a symbol that their card has in common with another player's card.
- If a player notices that they have exactly the same card as another player (since all players are using separate copies of Dobble boxes, it is possible that players will have identical cards), they can shout "Super Dobble!" to win the game immediately. A player who notices that two other players have identical cards can also win by shouting "Super Dobble!"

2

ONE, TWO, THREE  
FLIP OVER!

### GAME 2: SURVIVOR DOBBLE

- Each player holds a card facedown in front of their camera.
- On the count of three (1, 2, 3!), all players reveal their cards simultaneously.
- If a player says your first name and the symbol they have in common with you (e.g. "Maxime, the snowman!"), you are eliminated.
- When only one player remains, that player wins.

### GAME 3: DOBBLE: THE GAME SHOW

- The game master reveals 2 cards to the camera.
- The first player to type the answer (the symbol the two cards have in common) in the chat earns 1 point.
- Then the game master begins a new round by revealing a new pair of cards.
- After 5 rounds, the player(s) with the most points win the game.
